WINTER 2023-24

bolle®

| PERFORMANCE INNOVATION SINCE 1888 |

Born in 1888 in France, Bollé is  
the market leading solution for  
eyewear and helmets.

Globally respected and worldwide  
distributed, **Bollé is known as the  
most advanced design and creative  
sport brand**, which creates trends  
and pushes industry boundaries.

bollé®

| PERFORMANCE INNOVATION SINCE 1888 |

# OUR VISION

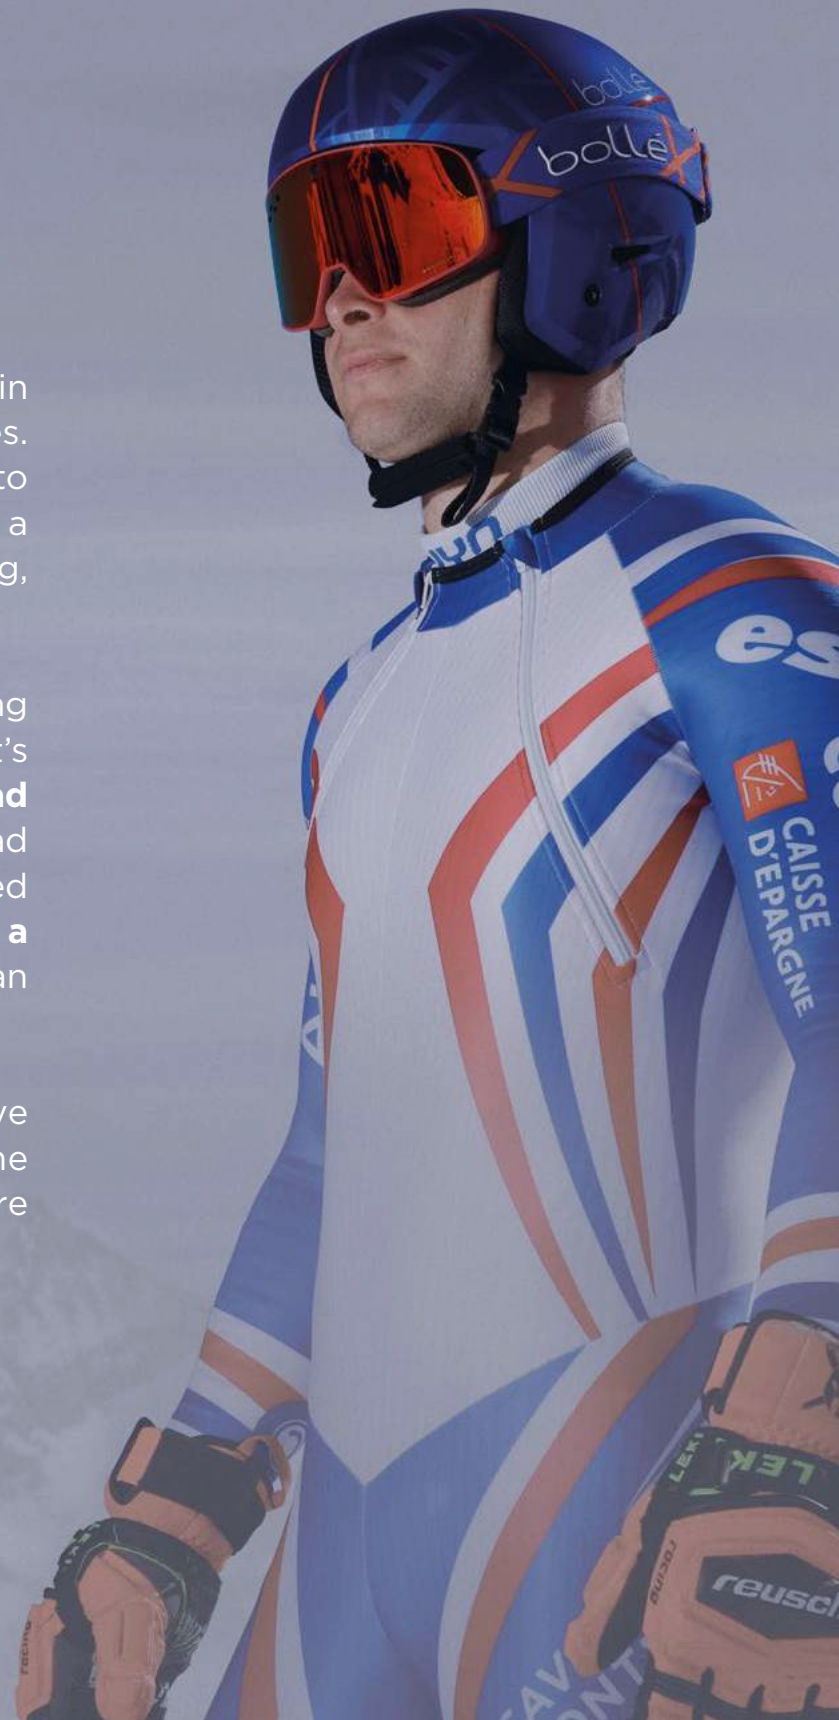

## VISION BEYOND

**Confidence** is a state of mind in which we seek to free ourselves. For many of us, it is a trigger to progress, to move forward. It is a goal achieved through training, failure, perseverance and success.

**Confidence** is not about being one hundred percent certain, it's about **seeing possibilities instead of obstacles**, opportunities instead of limitations. Once you've gained confidence, you are powered by a **vision** that takes you further than you ever thought possible.

Bollé designs gear with an eye for details that make all the difference, enabling you to venture further than ever before :

**BEYOND BOUNDARIES,  
BEYOND WHAT OTHERS SEE,  
BEYOND YOURSELF.**

# OUR INITIATIVE

AT BOLLÉ, WE DON'T CLAIM WE ARE GOING TO SAVE THE PLANET, BUT **WE DO STRIVE TO REDUCE OUR IMPACT.**

FOR THE 23/24 WINTER SEASON, THE BOLLÉ TEAM HAS Poured ALL ITS ENERGY INTO PURSUING ITS APPROACH TOWARDS SUSTAINABILITY WITH THE NEXT PHASE OF ITS "REACT FOR GOOD" PROGRAM.

WE ARE PROUD TO ANNOUNCE THAT WE ARE LAUNCHING **THE WIDEST RANGE OF ECO-DESIGNED WINTER SPORTS PRODUCTS AVAILABLE ON THE MARKET** WITH AN HYBRID HELMET, AN IN-MOLD HELMET, A VISOR HELMET, A PAIR OF TORIC GOGGLES, A PAIR OF CYLINDRICAL GOGGLES AND 5 PAIRS OF MOUNTAIN SUNGLASSES.

AND ALL THIS IS BROUGHT TO YOU IN **A 100% ECO-DESIGNED PACKAGING.**

# BRAND HISTORY

**1888**

**A FAMILY BUSINESS**

Seraphin Bollé created the brand Bollé; known at this time as one of the first company to use newly developed celluloid, which becomes the basis for Bollé products during those early decades.

**1956**

**CAT-EYES**

Georges Bollé created the famous nylon 'cat-eyes' sunglass.

**2007**

**SKI HELMETS**

Launch of the first line of ski helmets. A front-line player in the winter sports landscape.

**2020**

**RYFT**

The most ventilated snow helmet in the market.

**CHRONOSHIELD**

**2023**

**REACT FOR GOOD**

Launch of a full eco-designed winter range.

**1936**

**SUNGLASSES**

The brand launches its first sunglasses and becomes quickly the pioneer of molded Nylon.

**1960**

**SKI GOGGLES**

Ski goggles were first marketed by Bollé.

**2018**

**PHANTOM+**  
LIGHT ADAPTIVE LENS TECHNOLOGY

Launch of the best photochromic sports lens ever.

**2021**

**VOLT**  
HIGH CONTRAST ENHANCED COLOUR

A revolutionary high-contrast lens.

# LENS SEGMENTATION

## 3 LEVELS OF PERFORMANCE

### PHOTOCHROMIC

REVEAL THE INVISIBLE WITH THE BEST LENS IN THE MARKET

Searching for a competitive advantage, superior protection, or an extraordinary visual experience? We thought so. That's why we created Phantom, Bollé's photochromic lens with phenomenal optical clarity.

### HIGH CONTRAST

EXPERIENCE THE POWER OF COLOUR WITH AN EXCEPTIONAL HIGH CONTRAST FILTER

To see colors like never before, you need to test colours like never before. Which is why Bollé used artificial intelligence to evaluate over 20 million colour enhancement possibilities. In the end, only one formula provided an incomparable colour experience and it's so unique, it is patented. It's called Volt and it now establishes a whole new standard for high contrast lenses.

### SLF

#### SUPERIOR LIGHT FILTER

EXCELLENT VISIBILITY WITH 100% UV PROTECTION

The Superior Light Filter lens (SLF) is a polycarbonate lens with an anti-scratch and anti-fog coating which offers excellent visibility and protection.

## THE BEST KEEPS GETTING BETTER...

### PHOTOCHROMIC PERFORMANCE

Phantom lens technology achieves a wide range of visible light transmission, ensuring precise visual acuity in all weather conditions, including the most extreme. Our lens tint reaches **70% of its full activation within 20 seconds.**

### PROTECTIVE COATING

A true reference in the world of eye protection, Bollé Safety offers protective glasses trusted by professional workers in demanding industries like automotive, construction, mining, or pharmaceutical.

◆ **PLATINUM** represents the highest level of expertise in anti-fog and anti-scratch protection.

With **Phantom and Phantom+**, Bollé brings this expertise to everyone combining a higher performing anti-fog with an anti-scratch that is 40% more durable than the standard.

### HIGH IMPACT RESISTANCE

NXT<sup>™</sup> lenses not only protect you 100% from harmful UV rays, but are also built for maximum impact resistance. NXT<sup>™</sup> is one of the strongest materials on the market. Originally adapted from military use - jet canopies and helicopter windshields - lenses are subjected to rigorous high-velocity impact tests.

### OPTICAL CLARITY

Made with NXT<sup>™</sup> material, Phantom lenses raise the optical clarity of our lenses to a new level. NXT<sup>™</sup> material is packed with a lot of features such as optimal clarity, lightweight, high impact resistance, chemical resistance, and of course 100% UV protection. Ideal for a sport use, Phantom lenses will offer maximum protection & comfort of vision for your eyes.

### STABILITY

Bollé has advanced the performance of photochromic technology to an entirely new level. The Phantom lens with exclusive LTS Technology (Low Temperature Sensitivity), delivers improved activation, **darkening or lightening whether the temperature is -25°C or 5°C.**

## ... AND BETTER WITH PHANTOM+

LIGHT ADAPTIVE LENS TECHNOLOGY

### POLARIZATION

Polarized lenses are largely recognized today for their benefits in terms of blocking reflected glare. So it felt right to add them to our already unbeatable lens technology to improve its performance by yet another step. Equipped with Phantom+ lenses, you will be ready to take on any adventure.

### VISION ENHANCEMENT

The Bollé 50% polarized film works like a moderately dense net that reduces distracting glare while getting enough light transmission through the lens in order to distinguish ice from snow. Phantom+ equipped with this technology offers an optimized reading of the terrain while reducing eye fatigue.

TECHNOLOGY FROM  
COLOR DEFICIENCY LENS

# CLEAR

Protect your eyes during night or foggy conditions.

# YELLOW

Ideal for low light conditions, yellow lenses enhance depth perception for improved visibility.

# PINK

Excellent for a variety of conditions, pink lenses maximize colour definition and depth perception.

# AMBER

Great for bright light conditions, amber lenses manage yellow light for optimal comfort.

# BROWN

Ideal for sunny conditions, brown lenses amplify color contrast and deliver superior visual definition.

# GREY

Grey lenses maintain natural color perception, ideal for bright light conditions.

LENS TINTS + LENS TINTS + LENS TINTS

Bollé lens technology uses 6 different lens base tints to cover the widest range of light conditions, ensuring optimal visual clarity at all times.

# LOCKED IN LOCKED IN

NEVADA NEO

TORUS NEO

### LOCKED WHATEVER THE ACTION

Thanks to the EyeLatch, secure your lens in a blink of an eye. Open it to change the lens, and close it to lock it for the whole session, whatever the action.

### FORGET ABOUT THE WEATHER

With its kit of 2 magnetic lenses, both NEVADA NEO and TORUS NEO offer the best vision whatever the conditions. Change the lens quickly to adapt to weather shifts.

# FRAME SEGMENTATION

DESIGNED FOR EVERYDAY'S COMPETITORS

## ULTIMATE RANGE

**Iconic** product for competitors wanting the absolute best.

## EVOLUTION RANGE

**Performance** product for men and women who are committed to their sport.

## ESSENTIAL RANGE

**High quality** product for people who appreciate the values of sport and look for sporty design.

# FRAME TECHNOLOGY

Wearing Bollé's ultimate lenses is key to enhancing your vision of the world, yet it is not enough. At Bollé we give extra attention to details and technology while creating our frames, in order to ensure you get the most comfortable and reliable eyewear for your ride.

## DUAL STRAP ADJUSTERS

The two separate adjusters will let you easily set up your goggles perfectly the way you want.

## SILICONIZED STRAP

That sweet addition is there to make sure that once on your head, your goggles will never slip out of position.

## TRIPLE DENSITY FOAM WITH FLEECE

Our most high-end goggles are equipped with a triple foam construction for outstanding comfort over extended periods of time.

## LENS VENTS

An opening in the lens, with foam inserts to block debris, that allows for better air circulation and prevents fogging.

## THERMOFORMED NOSEFOAM

This area is specifically designed to perfectly fit your nose. It is so comfortable you'll forget you are even wearing goggles.

## AVAILABLE WITH SUPERIOR LIGHT FILTER, VOLT AND PHANTOM

Volt is our ultimate high contrast lens with 30% colour enhancement (closest competitor is at 15%). Phantom is the best photochromic lens out there, with an outstanding optical clarity.

## INJECTED DOUBLE LENS

This construction creates a thermal barrier between your eyes and the outside, that, combined with the lens vents, will make sure fogging is a thing from the past.

# GOGGLES FEATURES

Find below all of the other advanced technologies featured on our products.

## P-80+ ANTI-FOG

Embedded premium Anti-fog layer in the inner lens disperses water molecules across the surface of the lens, restricting moisture build up that can impede your crystal clear view of the terrain ahead. Available on all our goggles.

## CARBO GLAS® ANTI-SCRATCH

A high-tech protective armor applied to the outer lens creates a shield to significantly reduce scratching, keeping your lenses and outlook as clear as a bluebird sky.

## DOUBLE LENS

Creation of a dual-pane thermal barrier between the cold dry outside air and the moisture generated by intense activity prevents distracting condensation from forming.

## UV PROTECTION

All Bollé lenses block 100% of harmful UVA/UVB

## FLOW-TECH® VENTING

Engineered venting systems in each frame promote directional airflow across the inside surface of the lens, reducing the potential for moisture build up and maintaining your pristine vision.

## FORESTAY™ SYSTEM

Outrigger systems are designed for goggles to sit snugly on your face, while allowing the strap to interact independently with the latest helmet designs for an integrated fit.

## GOGGLES / HELMET INTEGRATION

Bollé helmets and goggles are developed in parallel to ensure perfect fit, optimal ventilation and best-possible comfort.

## SILICONIZED STRAP

The siliconized strap helps provide total support for the goggles on the helmet.

# HELMET TECHNOLOGY

HELMET : Ryft Mips  
GOGGLES : Nevada Neo

# RYFT

A REVOLUTIONARY VENTILATION SYSTEM

Active Panel Vent **CLOSED**      Active Panel Vent **OPEN**

## ACTIVE PANEL VENTILATION

Most snow helmets offer limited ventilation due to the difficulties encountered during the certification tests. The RYFT, on the other hand, has been designed to allow a huge air intake from vertical space around the vent opening, while the panels obstruct anything from penetrating into the headform. This revolutionary system makes it the only certified snow helmet with such a large amount of air channeling.

### AIR FLOW SIMULATION

RYFT      Hybrid Competitor

## FLOW TECH BRIM VENTING

Flow Tech Venting in the brim connects the goggles to the internal channel on the headform side which connects to the ventilation on the exterior of the EPS but under the shell. The RYFT is composed of multiple paths all interconnected for increasing airflow.

## REAR VENTS

As the RYFT provides such a significant air intake, it needs efficient air extraction. The rear shark vents allow for a huge space underneath the vent panel and effectively flush air and heat out from the helmet.

# ...COMING WITH HIGH-TECH FEATURES

## HYBRID SHELL: THE BEST OF TWO TECH

Bollé Hybrid shell construction synergizes the key features and benefits of In-mold and ABS shell technologies.

## DELUXE PERFORMANCE LINING

This lining is composed of high-end lycra that wicks away the transpiration while making sure high friction areas are padded so you stay dry and comfortable from dawn to dusk.

## AVID PROGRESSIVE EPS

To make sure our helmets are as ventilated as they can be, our Research and Development team analyzed in details where EPS could be removed without diminishing the level of protection. This way, they were able to dig out channels that enhance the passive ventilation in a very efficient way. Combined with our innovative Adjustable ventilation systems, this is how you get the most ventilated helmets on the market.

## FIDLOCK® MAGNETIC BUCKLE

With the integration of the magnet in the buckle, locking your helmet on your head has never been that easy, gloves on or off.

## Mips

## BRAIN PROTECTION SYSTEM

For ultimate protection performance, RYFT is equipped with the best brain protection of the market : MIPS® patented Brain Protection System

## NEW GOGGLES RETAINER SYSTEM

Discover this new feature available on the RYFT. Lock and unlock the removable goggles clip easily even when you are wearing gloves. Then enjoy your ride without thinking about adjusting your goggles' strap, due to the integrated grooves on the back and the sides of your RYFT.

## BOA® FIT SYSTEM

Engineered to push performance further, it is a fit system providing micro-adjustability for fully customized comfort and unmatched stability.

# MIPS TECHNOLOGY

MULTI-DIRECTIONAL IMPACT PROTECTION SYSTEM

PATENTED SAFETY SYSTEM

LOW FRICTION LAYER

FOUNDED IN SCIENCE

THE LOW FRICTION LAYER ALLOWS A MULTI-DIRECTIONAL MOVEMENT OF 10-15 MM ON CERTAIN ANGLED IMPACTS, INTENDED TO REDUCE ROTATIONAL FORCE TO THE HEAD.

LEARN MORE: [MIPSPROTECTION.COM](https://mipsprotection.com)

# AVID PROGRESSIVE EPS

INCREASED VENTILATION • ADVANCED PROTECTION

## VENTILATION

Every part of a helmet doesn't need the same quantity of EPS to provide perfect protection. Our Research and Development team carefully analyzed which areas could be carved out to reduce the unnecessary amount of EPS without reducing the level of security.

This process allowed for bigger inner-space for the air to circulate and increase the passive ventilation properties as well as the weight of the helmets equipped with our AVID technology.

## PROTECTION

By reducing the amount of EPS in the areas where it was possible, we virtually reduced the EPS density of those areas. That way they provide perfect protection for medium and low energy impacts by compressing upon contact while the surrounding areas with high density EPS keep your head safe from high energy impacts by absorbing the shock.

# HELMET FEATURES

## BOA®

Engineered to push performance further, the Boa® Fit System provides micro-adjustability for fully customized comfort and unmatched stability. Dial in your perfect fit, stay in the moment and ride with comfort with Boa®.

**AIR EXTRACTOR**

Venting holes provide constant air circulation. Cool air comes in from the front and extracts hot air at the back in order to keep your head just at the right temperature in any condition.

**DETACHABLE LINING**

Most Bollé helmets feature detachable and washable inner lining.

**ADJUSTABLE VENTILATION**

The Adjustable ventilation system is easy to use and enables you to control the amount of air coming in for maximized comfort.

**REMOVABLE EARPADS**

Designed to be comfortable and warm, while still allowing you to hear clearly. Helmet ear pads can be removed for washing.

**PASSIVE VENTILATION**

Openings at strategic points on the helmet ensure constant airflow inside.

**CLICK-TO-FIT™ SYSTEM**

Our Click-To-Fit™ system allows you to fine tune the fit of your helmet easily and quickly. Our rubberized adjustment wheel lets you tighten or loosen the helmet effortlessly, even with your gloves on!

**PERFECT GOGGLES / HELMET INTEGRATION**

Bollé helmets and goggles are developed in parallel to ensure perfect fit, optimal ventilation and best-possible comfort.

Our audio kit system offers great stereo sound with a volume dial for quick and simple sound control. Super thin speakers are inserted directly into Bollé earpads so you can't lose them.  
\*Audio kit sold separately

There is a reason some people think it was created by the luxury designers at Ferrari. The RYFT and its state-of-the-art design does what no helmet has done before. A unique and patented active panel ventilation system provides an unprecedented airflow, making the RYFT the most ventilated helmet ever designed by Bolle. Equipped with MIPS, this hybrid helmet also meets the highest impact protection norms for a safe ride in any condition. So inspiring, it is now an entire product family, with 5 additional models.

# ATMOS MIPS

SIZES: FROM 52 TO 62 CM

MIPS  
AVID Progressive EPS  
Adjustable ventilation  
In-Mold shell  
Removable 3D earpads

AVAILABLE TECHNOLOGIES

Removable and washable lining  
Click-to-Fit™ Sytem  
Weight: 490g  
Supplied with carry bag

Bolle's lightest high-end model thanks to its in-mold construction. An active ventilation system with 8 vents along with goggles vents and air extractor channels below the shell make the ATMOS MIPS an extremely well-ventilated helmet. This model is also equipped with MIPS and the avid progressive EPS technology to ensure the maximum level of safety. The Click-to-Fit™ Sytem guarantees a perfect fit while the soft fleece lining and the 3D earpads provide exceptional comfort.

# ECO ATMOS

SIZES: FROM 52 TO 62 CM

### AVAILABLE TECHNOLOGIES

- EPS inner shell with 20% cork
- 100% recycled plastic straps and dividers
- 40% recycled plastic fit system and goggles retainer
- 100% recycled fabric padding and earpads
- In-Mold outer shell made of 40% recycled PC on Black Matte colorway
- Adjustable ventilation
- Removable 3D earpads
- Removable and washable lining
- AVID Progressive EPS
- Click-to-Fit™ Sytem
- Weight: 455g

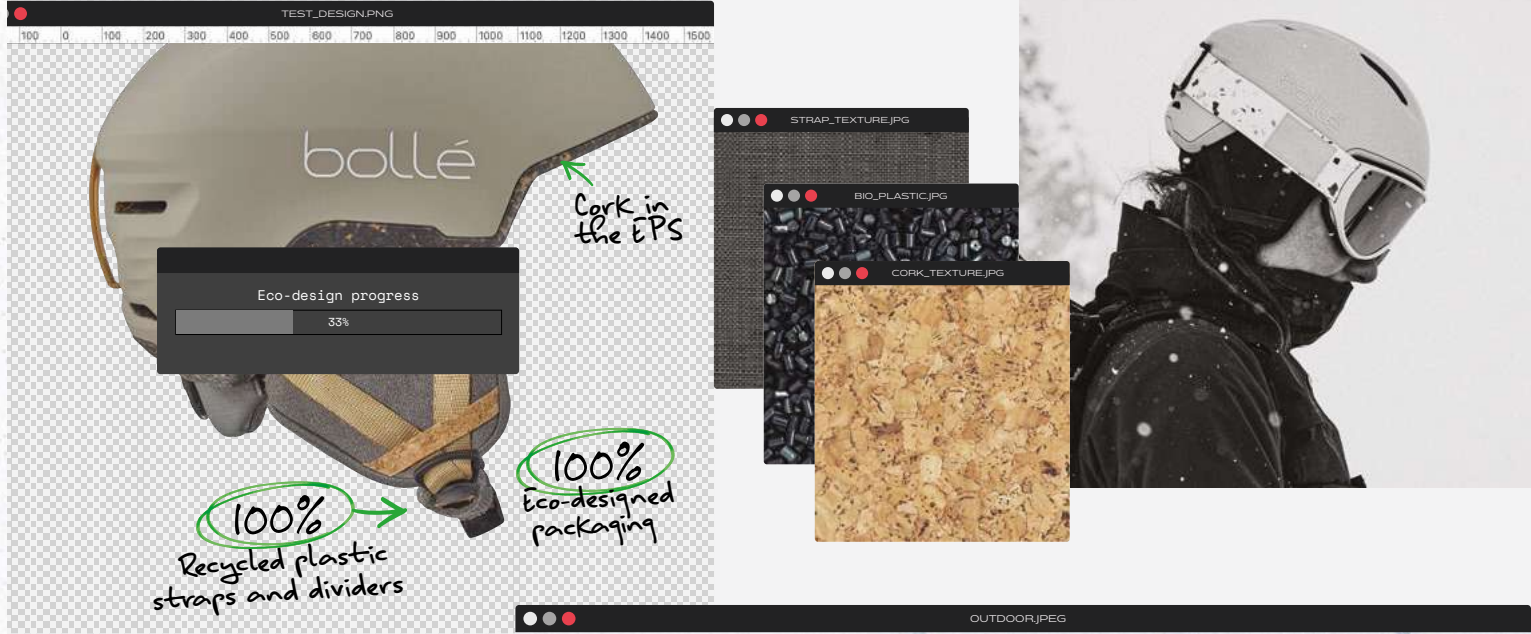

With its in mold construction, the ECO ATMOS first attributes are its lightness and comfort. Designed with eco materials including Lycra lining, straps, dividers, shell and earpads, all partially made from recycled or bio based materials along with cork mixed with the EPS, it is Bolle's first ski helmet with a sustainability approach for avid skiers who want to do their part for the planet. The active ventilation system with 8 vents also makes the ECO ATMOS one of the most ventilated helmet of the range.

Reduce eye-fatigue

**OLEO/HYDROPHOBIC**  
Stays clean and clear

# ADVENTURER

FIT: MEDIUM • 8BASE 59/49/130/137

### AVAILABLE TECHNOLOGIES

- Available with Phantom Photochromic Lens
- Available with Solace4 Mineral Lens
- Cord included
- Removable side shields
- Snap hinge
- Thermogrip\*
- 45% bio-based material (made with renewable castor oil)

A vintage round mountain frame revisited with Bollé design language; the ADVENTURER is a symbol of the brand's outdoors expertise. High performance and trendy, these base 8 glacier sunglasses are easy to wear and offer the highest protection for ultimate conditions. Comfort, fit, and stability are ensured thanks to the Thermogrip® rubber on temple tips and on its adjustable 3-position nose pads. Removable side shields guarantee maximum light protection. The ADVENTURER leaves nothing to chance with its snap hinge, a hole for a cord included with the frame and its rubber front clip. Available with our best lenses for high-altitude, mountain specific and photochromic Phantom Black Gun (VLT 18-5%) and Solace 4, our mineral lens (VLT 5,5%).

EXPERIENCE THE ULTIMATE IN PRESCRIPTION

**PRECISION OPTICS**

- Available with Phantom technology: optical photochromic lenses
- Available with VOLT+ technology: optical high-contrast and polarized lenses
- Adjustable nose piece and temples
- Hydrophobic/Oleophobic coating

**WIDE RANGE OF MODELS**

Our prescription technology is now integrated on our spherical shields frames (e.g. Icarus, Chronoshield, Lightshifter...) and most shield lens colours are available.

**AVAILABLE IN 99% OF PRESCRIPTION**

+6.00 to -8.00 spheres with opposite cylinders to +/-4 total power.\*

\*For progressive lenses the maximum positive is SPH+ADD

**XXL FIELD OF VIEW**

Laser cut inserts (no optical clip) for optimal lightness

**PRESCRIPTION PROGRAM**

**ADVANCED TECHNOLOGY AND PREMIUM SERVICE**

Software using the most advanced calculations is used to create customized lenses and the ultimate in lightweight products. Every prescription is reassessed to compensate for optical distortions related to the frame wrap angle. When the prescription reaches the limits of the conventional digital surfacing method, our patented algorithm calculates the best lens geometry regarding the optical area, the transition zone and reduces the edge thickness (US patent number 8,002,404). Every product is customized to the prescription, frame and wearer's facial metrics, ensuring optimum precision, comfort and frame balance for sports sunglasses.

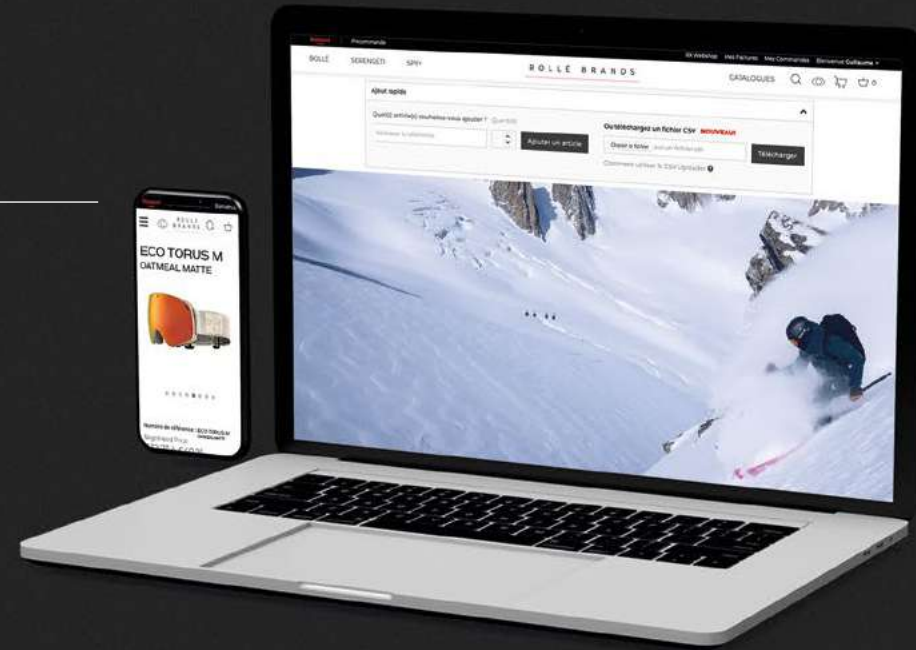

- 1 VISIT OUR WEBSHOP**  
<https://rx.bollebrands.com/>
- 2 JUST A FEW CLICKS**  
IS ALL IT TAKES
- 3 PLACE YOUR ORDER**  
ONLINE

**A TRANSPARENT & INTUITIVE WEBSHOP**

Since Fall 2022, a new version of the RX Webshop (Link : <https://rx.bollebrands.com>) has been made available to the opticians, to make the RX ordering process even smoother. More informative, easier to use : you can enter the prescription details of the frame wearer and the webshop will automatically filter for you the available frame & lens combinations corresponding to his (her) prescription. A lens thickness calculator also helps you to anticipate the best solution for each wearer.

# B2B ORDERING PLATFORM

[b2b-bollebrands.com](https://b2b-bollebrands.com)

## REQUEST ACCESS TO OUR NEW 24/7 ORDERING PLATFORM

Access to special offers and promotions

Real-time stock availability

Access to order history and invoices

24/7 instant ordering tool

Access to full online catalogs

Import products to your cart

## MY ACCOUNT KEY INFORMATION:

- Order status
- Order history
- Invoice history
- Download PDF of your orders & invoices
- Download statement of account
- Your information (phone number, email, etc.)

## KEY FUNCTIONALITIES:

- Customer Specific Product Pricing
- Quick order
- Product and marketing items
- Stock Visibility
- Back Order Functionality
- CSV Import – Mass import items to your cart
- Ability to enter your own PO at checkout
- Ability to download Product Catalogs
- Access to ESG/Conformity files
- Access to marketing kits

The B2B platform is available for customers in France, Germany, Austria, UK, Ireland, Italy, Spain, and USA. If you are in a country not listed, please reach out to your local distributor.

Please contact us for any questions: [b2becommerce@bollebrands.com](mailto:b2becommerce@bollebrands.com)
