# VISION BEYOND

**Confidence** is a state of mind in which we seek to free ourselves. For many of us, it is a trigger to progress, to move forward. It is a goal achieved through training, failure, perseverance and success.

**Confidence** is not about being one hundred percent certain, it's about **seeing possibilities instead of obstacles**, opportunities instead of limitations. Once you've gained confidence, you are powered by **a vision** that takes you further than you ever thought possible.

Bollé designs gear with an eye for details that make all the difference, enabling you to venture further than ever before :

**BEYOND BOUNDARIES,  
BEYOND WHAT OTHERS SEE,  
BEYOND YOURSELF.**

# BRAND HISTORY

1888

## A FAMILY BUSINESS

Seraphin Bollé created the brand Bollé; known at this time as one of the first companies to use newly developed celluloid, which becomes the basis for Bollé products during those early decades.

1956

## CAT-EYE

Georges Bollé created the famous nylon «cat-eyes» sunglass.

2007

## SKI HELMETS

Launch of the first line of ski helmets. A front-line player in the winter sports landscape.

2018

Launch of the best photochromic sport lens ever.

2021

A revolutionary high-contrast and polarized lens.

1936

## SUNGLASSES

The brand launches its first sunglasses and becomes quickly the pioneer of molded Nylon.

1960

## SKI GOGGLES

Ski goggles were first marketed by Bollé.

2015

## CYCLING HELMETS

Launch of the cycling helmets line.

2020

## REACT FOR GOOD

Launch of our sustainable campaign.

2023

## OPHTHALMIC GLASSES

Launch of the ophthalmic glasses line.

# LENS SEGMENTATION

3 LEVELS OF PERFORMANCE

## PHOTOCHROMIC

REVEAL THE INVISIBLE WITH THE BEST LENS IN THE MARKET

Searching for a competitive advantage, superior protection, or an extraordinary visual experience? We thought so. That's why we created Phantom, Bollé's first photochromic lens with phenomenal optical clarity.

## HIGH CONTRAST

EXPERIENCE THE POWER OF COLOUR WITH AN EXCEPTIONAL HIGH CONTRAST FILTER

To see colours like never before, you need to test colours like never before. Which is why Bollé used artificial intelligence to evaluate over 20 million colour enhancement possibilities. In the end, only one formula provided an incomparable colour experience and it's so unique, it is patented. It's called Volt+ and it now establishes a whole new standard for high contrast lenses.

## SUPERIOR LIGHT FILTER

### ESSENTIAL

EXCELLENT VISIBILITY WITH 100% UV PROTECTION

A standard polycarbonate lens, for excellent visibility and protection.

Available in photochromic option

Block light reflections for even more eye comfort

SLF

## HIGHEST PERFORMANCE LENS ON THE MARKET

PHOTOCHROMIC  
NXT MATERIAL (OPTICAL CLARITY, LIGHTNESS, RESISTANCE)/ HIGH CONTRAST FILTER

## REVOLUTIONARY COLOUR ENHANCEMENT LENS

HIGH CONTRAST / POLARIZED

## SUPERIOR LIGHT FILTER

WITH POLARIZED & PHOTOCROMIC OPTION

Light Adaptive Lens Technology

**PHANTOM**

[DISCOVER THE KEY VISUAL !\[\]\(d66ff64371a51729ac8c1cdaa685ba6f\_img.jpg\)](#)

Adaptation is key. Get the best vision, no matter the conditions, with Phantom **photochromic** lenses.

**PHANTOM**  
LIGHT ADAPTIVE LENS TECHNOLOGY

**ADAPTATION IS KEY**

**PLATINUM**

A true reference in the world of eye protection, Bollé Safety offers protective glasses trusted by professional workers in demanding industries like automotive, construction, mining, or pharmaceutical. Platinum represents the highest level of expertise in anti fog and anti scratch protection.

With **Phantom**, Bollé brings this expertise to everyone. A perfect protection with a more performing anti fog and an anti scratch that last 40% more than the standard.

**LIGHTWEIGHT**

NXT<sup>®</sup> material is close to the lightest lens material available today, at 14% lighter than polycarbonate. This allows for larger designs with fuller coverage, ultimate protection and utmost comfort.

**AVAILABLE IN PRESCRIPTION**

Because everyone's vision is unique, Phantom lenses are available on our RX-able frames, suitable for 99% of prescriptions.

**HIGH IMPACT RESISTANCE**

NXT<sup>®</sup> lenses not only protect you 100% from harmful UV rays, but are also built for maximum impact resistance. NXT<sup>®</sup> is one of the strongest materials on the market. Originally adapted from military use - jet canopies and helicopter windshields - lenses are subjected to rigorous high-velocity impact tests.

**OPTICAL CLARITY**

Made with NXT<sup>®</sup> material, Phantom lenses raise the optical clarity of our lenses to a new level. NXT<sup>®</sup> material is packed with a lot of features such as optimal clarity, lightweight, high impact resistance, chemical resistance, and of course 100% UV protection. Ideal for a sport use, Phantom lenses will offer maximum protection & comfort of vision for your eyes.

**PHOTOCROMIC PERFORMANCE**

Phantom lens technology adapts to any light condition, ensuring precise visual acuity whatever the weather. The lens tint changes with the light from cat.1 to cat.3. Enhanced vision whatever the conditions.

**HIGH CONTRAST**

Bollé has advanced the performance of Phantom lens technology by adding a high contrast filter on its lenses. Available on all Phantom lenses, the high contrast filter boosts colors and significantly enhance your vision. Whether you are on the road or on trails, high contrast lenses will help you perceive the obstacles.

# FRAME TECHNOLOGY

(ADJUSTABILITY + FIT + GRIP)

⊗  
 LIGHTWEIGHT  
 =  
 PERFECT COMFORT

Wearing Bollé's ultimate lenses is key to enhancing your vision of the world, yet it is not enough. At Bollé we give extra attention to details and technology while creating our frames, in order to ensure you get the most comfortable and reliable eyewear for your active life.

## ADJUSTABLE TEMPLES

The temples can be adjusted which offers a truly tailored fit and the ultimate in comfort.

## S-FIT SIGNATURE TEMPLES

For a pro cyclist, having the strap of your helmet going over the temple of your sunglasses is a real fashion faux-pas. That is why we created that distinctive curved design on our sunglasses temples to make sure that mistake never happens. In addition, it loosens the strain in the temple making it more flexible at the rear and providing better comfort and stability while keeping it steady on your face.

## REMOVABLE SIDE-SHIELDS

For high-altitude adventures, our mountain frames come with side-shields for the ultimate solar protection.

## NYLON AND ECO-NYLON FRAMES

Bollé uses only the finest grade nylon, resulting in frames that are exceedingly strong, yet lightweight and flexible. No matter how tough the competition, these sunglasses can take it. From SS23 onwards, all our new models are eco-designed with more than 20% recycled or bio-based materials (percentage in weight)

Product made of at least 20% recycled or bio-based materials (percentage in weight)

## ADJUSTABLE NOSE PIECE

The shape and angle of the multi-plane nose piece can be adjusted to accommodate any nose bridge for a truly custom fit. The hypoallergenic and durable nose piece can be tailored for a custom fit, giving you additional control and comfort.

## INTERCHANGEABLE LENSES

Bollé helps you stay on top of your game with this interchangeable lens system. By giving you the flexibility to match the lens to the condition, this system ensures optimum performance for any condition.

# WATER SPORTS TECHNOLOGY

## FIT-TEC TEMPLE

Bollé developed exclusive self-adaptive temples with 3-axis rotation to provide perfect fit no matter the intensity of the action.

Available on the Windchaser

## FIN SHIELD TECHNOLOGY

Signature of the water sports family, the rubber fins offers maximum coverage, even on the sides.

Available on the Airfin, Airdrift and Windchaser

## AIR FLOAT TECHNOLOGY

Combined with a light and floatable material, the air cap allows the frame to float horizontally, making it easy to find your sunglasses in the water.

Available on the Airfin and Airdrift

**Mickaël Eveno**  
aka Grems

A complete artist with overflowing energy, Grems is the kind of unstoppable artist, who will always push the boundaries until the end. His two main creative tendencies, art and music, developed alongside one another, are teasing and forcing each other to more energetic production in order to always create something unexpected while keeping his well-known and unique style.

**Le tracé**  
La collab

"It all comes down to a trace. A trace as a race route, a trace as a brush stroke, a trace as a product shape or simply a trace as the mark that Bollé will leave in history. A trace left by an object, a tool. I create a link between the journey and the outcome. I want to make the invisible visible. I illustrate through my language of trace the invisible bond between efforts, performance, and achievement."
