Born in 1994 in San Diego, SPY+ hails from the crossroads of the cultures that define California youth.

Concrete / Water / Snow / Dirt / Art / Music

This realm of non-conformity bleeds self-expression at its core and is the driving force behind everything we do.

The name SPY+ represents our role as agents of this culture from which the brand was born.

Our "Cross" icon is a symbol of the intersection of ideas that spark positive revolution.

Our flagship orange embodies our spirit of warmth and good vibes.

+ + + +

CHANGE

They exist in multiple dimensions of expression.
They are outside of control, yet not out of control.

Brashly individualistic, our people are agents of positive
action that walk along the edge of what is now and what is next.

AGENTS

+ + + +

Our endless pursuit of positive cultural evolution is symbolized by tools that have a profound impact on how you see the world.

Our calling is to build the best products that empower individual expression for as many people as possible.

We are a design-driven brand.

We challenge the common ideals of the status quo and embrace the arcane, eccentric, and revolutionary.

We are champions of originality, and the products we make are symbols of pure freedom to be yourself.

SUPER-VIVID COLOR AND CONTRAST + HAPPYLENS TECH = HAPPYBOOST

We created a lens with color so vivid and details so sharp, it will not only boost your mood, it will also redefine how you see the world. A truly euphoric visual experience.

We call it **HAPPYBOOST**.

THIS LENS WILL REDEFINE HOW YOU SEE THE WORLD.

HAPPY BOOST™ was born out of a desire to create the ultimate outdoor experience by adding a mind-blowing amount of color and contrast to our already patented therapeutic lens. Mission accomplished.

Using the space-age power of AI, the mad scientists in SPY+'s E.P.I.C. Lab tested millions of color formulas and in the end, there was only one worthy enough to be called HAPPY Boost™.
